PROJECTS

PixelCraft – Visual Web Design & Code Generation Tool | *React, Context API, JavaScript, Claude API*

- [Live Demo](#) [GitHub Repo](#)
- Built a drag-and-drop React page builder using **Context API & useReducer**, with **undo/redo** and keyboard-shortcut editing; includes **18+ UI components** across 6 categories and **6 pre-built templates**
- Engineered a code generation engine exporting canvas designs to **HTML, CSS, and React JSX**, with JSON-based project save/load
- Integrated the **Claude API** for AI-powered CSS generation from natural language, with **3-viewport responsive preview**

Nightwave – Full-Featured Music Player | *JavaScript, OOP, Web Audio API, IndexedDB*

- [Live Demo](#) [GitHub Repo](#)
- Architected a modular **OOP** player (7 classes) with **event-driven design** using custom DOM events to decouple playback from UI
- Built persistence with **IndexedDB** (audio storage) and **localStorage** (playlists, likes, theme); implemented a real-time **Web Audio API** visualizer via Canvas
- Integrated **iTunes Search API** for song suggestions; added drag-and-drop queue reordering and **8+ keyboard shortcuts**

ShopEase – Full-Stack E-Commerce Platform | *React, Redux Toolkit, React Router, Tailwind CSS*

- [Live Demo](#) [GitHub Repo](#)
- Built an e-commerce platform in **React 19** with **Redux Toolkit** managing product, cart, wishlist, order, and review state across **10 categories** and **51 products**
- Implemented full purchase flow (**cart, checkout, order history**), a persisted wishlist, and a product review system
- Built an **admin dashboard** with full CRUD product management and role-based protected routes; optimized with **code-splitting** and lazy-loaded images

ACHIEVEMENTS

- Solved 500+ problems on LeetCode with a 300+-day streak
- CodeChef 2-Star Rated (Rating: 1534)
- Completed 400+ problems from Striver's DSA Sheet
